More Models Later This Year

1/8th Scale Models

For some years now we have been producing 1/8th scale models for a few clients and for our personal collections. The models, delivered on high quality MDF bases, with hand made acrylic display cases nearly 70cm long, are very impressive by their sheer size, permitting easy appreciation of intricate detailing and wonderful finish. They make spectacular centerpieces for any model collection, as single stand-alone desk top or boardroom models for anyone interested in beautiful large scale car models.

We have already made some models for car manufacturers to display in car showrooms, museums and boardrooms.

We are happy to discuss producing other models to order. In the meantime the models shown in this catalogue are available only by order.

Modelling F1 - Development and Complexity

Before we started producing contemporary F1 models, we asked ourselves whether or not it was possible to make better models than the ones already existing in the market.

Modern F1 cars are very difficult to model compared to those of previous decades. Their aerodynamics have developed in such complex ways, with evolving airflow management around brakes, body, suspension and engine.

Simple wings are now multi layer, spoilers, winglets, flaps and end plate systems. Modelling these in 1/43 scale has caused us to closely evaluate different combinations of materials and molding techniques in our effort to reproduce such fine detail in 1/43 scale.

We believe we offer the highest quality products available in our price bracket and we hope that you appreciate the results.

1/64th Scale Toy Model Collection

NEW SCALE 1/64th

Our regular ranges are far too fragile for the toy box and, as limited production collectibles, out of reach for the average child on a pocket money budget.

These models, we feel, bring accuracy and collectibility to the toy box and playroom at totally affordable prices

Delta Wing-Nissan No.0
Le Mans 2012
F. Marino - K. Michael -
M. Satoshi
64S001
