**TopSpeed** Model is a new brand from the makers of TSM-Model, producing entry level 1/18 scale replicas for collectors with a strong balance between price and quality.

By utilizing our resources and experience in the model industry, TopSpeed has a goal of delivering great value. Using the latest in 3D scanning technology allows us to minimize development costs and decrease the cost of producing accurate models for collectors. By focusing our efforts on popular subject material we are able to spread out development costs over a larger production, and this also allows for additional savings when producing related models that share common parts. We aim to offer the perfect balance between price and quality and use our years of manufacturing experience to the direct benefit of collectors worldwide.

This new brand will offer a wide range of selections, with initial offerings featuring modern sports cars such as the new Acura NSX and the Ford GT. With a product range including automotive heavyweights such as Jaguar, McLaren and Alfa Romeo, TopSpeed will offer something for everyone.
